Switcholio Doubles

You'll start by playing three warm-up games, each time with a different random teammate. After those games, everyone will join a double elimination tournament.

(For example, if there are 60 players, the top player (#1) will be paired with the bottom player (#60), #2 with #59, #3 with #58, and so on, all the way until #29 is paired with #30.)

This way, teams are balanced, everyone gets a guaranteed five games, and no team has an unfair advantage. Any and all sandbagging is punished by disqualification and ridicule.

2- Kids Switcholio Doubles Division ages 7-11 & 12-15

3 Games with random partners. Followed by a double elimination tournament that puts the best player with the worst player from those 3 random games all the way to the 2 most average players being paired up. This guarantees you 5 games and makes sure there are no stacked teams.

7-11 years old will play on 15' courts front of board to front of board

12-15 will play at full distance. If your child is above average please enter in adult division
